

## SHOW REMINDERS for all AUTO FAIR PARTICIPANTS

- DISPLAY TIMES: Saturday 8-6, *Rain or Shine*. Plan to arrive at the speedway as early as 6:00 am when the gates will open for Show Cars and no later than 7:20 am each day. In the past, we've had major traffic jams occur due to arrivals at 8 am or later, causing the Highway Patrol to re-route traffic. Arriving early each day will greatly reduce the chances of getting "caught in a jam". All show vehicles should be in their display area for the public when the show starts each morning at 8 am.
- PARKING/VEHICLE PASSES are to be used on Saturday ONLY. Misuse will result in the revocation of this pass along with towing of the vehicle.
- PARKING VEHICLE PASS DISPLAY: Must have name and cell # printed on pass (preferably with a Sharpie), and attached to the lower left-hand driver's side of the windshield prior to arrival at the speedway. According to speedway entrance staff, parking passes in a glove box or wallet, lying on a console seat or dash - everywhere they should not be, are directly responsible for most of the bottlenecks occurring at the entrances. Should you not want to use the method stated on the sticker to attach it to the windshield, please use a piece of tape. The entrance gate staff must be able to see and read these passes before they will allow show vehicles to enter the premises. If the staff can't see the parking passes well or not at all, they must stop the vehicle which in turn, creates traffic flow problems and delays.
- ADMISSION PASSES: Have these passes ready at all times to provide to the Gate Personnel
- UNUSED ADMISSION AND PARKING PASSES must be returned to the Speedway. Each Admission and Parking Pass contains an audit number that must be accounted for after each show. Primary Club Representatives must return to the speedway all of the passes for each vehicle not showing in their club display. Should you be unable to attend and participate in your club's display, all passes in your possession must be returned to your club Representative who will return these to the speedway.
- VEHICLE COUNTS begin early each morning. Vehicle counts have a direct bearing on the number of spaces allotted to each club for the following Auto Fair or if there will be a future invitation from the speedway to participate in Auto Fair. Car clubs are removed from our Show Roster when there are major discrepancies in the number of show vehicles actually displayed vs the number of vehicles committed to show.

- TROPHY PICK UP: Trophies will be ready for club pick up Saturday after 10 am
- SECURITY: Please keep a “watch” on your personal vehicle along with other show vehicles as well. Suggest all windows & convertible tops be kept up and doors locked to secure the interior of the vehicle.
- SHOW VEHICLES ONLY, are to be within a club display. In past shows, there have been some club displays that included obvious non-show type vehicles. Unacceptable example: newer model Chevrolet trucks in a classic GM display. There are tow truck companies on standby to tow non-show vehicles outside the Speedway. Each and every display space is at a premium and reserved solely for show vehicles. If it is not a “show vehicle”, it is not to be parked within your club display.
- SUPPORT VEHICLES are not allowed inside the track or within the club display. The Support Vehicle MUST be parked in “Complimentary Parking” area with the special parking pass displayed on the lower portion of the driver’s side of the windshield. The Complimentary Parking area is outside the track in “any \$5 Lot”.
- NO “FOR SALE” SIGNS allowed on club display vehicles. Participants wanting to advertise their vehicle “For Sale” will need to contact the Hornet’s Nest to purchase a Car Corral space. Vehicles advertised “For Sale” in a display are subject to being towed.
- NO “FOR SALE” MERCHANDISE such as Parts, Trailers, Wheels, etc. within car club displays. We have requested the club Representatives to please keep a close check on this throughout the day to make sure this is not occurring within the display areas.
- NO GRILLS, COOKERS, STERNOS (canned heat/fuel) or similar equipment. Absolutely no type of burning fuels or open flame.
- TRANSPORT TRAILER PARKING AREA is noted on maps given to the club Representatives. Transport trailers are not allowed inside the track area at any time. Trailered vehicles will need to be off-loaded in the trailer parking area located parking lot #4. (Drivers are required to present the Show Vehicle parking pass to the gate staff before they will be admitted to this parking area.) Off loaded vehicles should then have the parking pass adhered to the lower left-hand driver’s side of the windshield and driven to the display area.

- VEHICLES MUST REMAIN PARKED in the display areas at all time. “Cruising” the Swap Meet areas or Car Corral is not permitted. “Burn-outs” or similar actions, including excessive speed on Speedway property at any time will result in vehicle and driver being escorted from the premises. Vehicle and driver will be banned from participating in future Auto Fair events.
- CAR CLUB NAME SIGNS belong to Charlotte Motor Speedway. Signs are not to be removed by anyone other than Speedway Personnel. These signs are the property of the Charlotte Motor Speedway. They are placed to assist your members, along with the Public, in locating your display area.
- FUTURE AUTO FAIR SHOW DATES:

2022

Fall September 7-10

REVISED: March 2022
